

Set up your Computer System for operating on e-Procurement System of Government of Madhya Pradesh

You need to update the following on your Computer System,

1. You need Internet Explorer (**Version 6 or above, Cipher Strength -128 bits**). You can check the current status of the same by opening the Internet Explorer browser → Help → About Internet Explorer. In case you have a lower Version, you will have to upgrade your Internet Explorer browser which can be done free of cost from <http://www.microsoft.com/windows/ie/default.mspx>
2. Now install the **Encryption Utility** available on **Home Page** → **Download** section as per Operating System installed in your Computer System.
3. Now install the **Number to Word Conversion Utility** available on **Home Page** → **Download** section.
4. Finally, add the URL of the e-Procurement System **http://*.mpeprocurement.gov.in** in the **Trusted Sites** in the **Internet Explorer** browser of your Computer System as follows,

Internet Explorer → **Tools** → **Internet Options** → **Security** → **Trusted Sites** → **Sites** → Remove **Check Mark** on '**Require server verification (https:) for all sites in this zone**' → type **http://*.mpeprocurement.gov.in** in the field '**Add this website to the zone**' and click on **Add** button.

After this you should be able to login on the website. In case you are facing any difficulties, please let us know by phone on **0755 - 407 50 10** or **Call center No. 155 343** or by email on **bhopal@nextenders.com**
